

Stylized Village Fantasy

Intro

Thank you for purchasing Stylized Village Fantasy – easy start to create you Fantasy Game!

How To Use

Stylized Village Fantasy – have already premade 1x Demoscene and 1x Ordered scene that you can you can look at to see how it all looks together and separately.

Demoscene.scene – Premade scene

Stylized Village Fantasy.scene – Scene with all prefabs separate.

Folders:

- Terrain - premade terrain
- Mesh - all fbx files + materails
- Prefab - all prefabs
- Scene - 2 Scene (1 demoscene and 1 ordered)
- Texture - Texture for mesh
- Texture_PSD - You can change colors , everything is on layers
- Texture_Ground - This texture use for paint ground in terrain.

*This pack use only default materials and no scipts.

*By our textures for ground you can grow terrain and village with prefabs.
